

**Greeting from the President of FIDAL Piemonte
for the 11th Marco Germanetto Memorial Race**

The 11th Marco Germanetto Memorial Race will be once again a great sport event with the young athletes bringing a festive atmosphere to one of the world's most fascinating and important international mountain running race.

My greeting, on behalf of FIDAL Piemonte, goes in the first place to the organizers of this event. Ever since its first edition the aim of this competition, born in memory of Marco and his passion for running, has been that of promoting mountain running at an international level with the set up of the Youth Challenge WMRA.

The mountains of Sauze d'Oulx – the very same mountains where Marco's passion for running was born - will be the venue for this new event. An event which represents a new chance to promote our territory as well as open-air sport and athletics. A chance for young people coming from different nations to have fun together. All this in memory of Marco, one of them.

Maurizio Damilano
President of Fidal Piemonte
