

Memories and emotions are flying light since nearly eleven years. Memories and emotions that do not accept boundaries but every time come with a new skin. The unique feature of Marco Germanetto Memorial is its continuous change of shape and setting, its quest for new formats. We like to think that there could be another distinctive feature: a particular atmosphere, deeply inspired, made of happiness and joy of life, despite everything.

An atmosphere that lives thanks to the support of many friends and many Associations that every year, with simplicity and affection, join us in this everlasting memory.

To be held at Sauze d'Oulx in 2010, following a memorable edition of the world championship for this specialty, but with the same desire ever to create a little but great event for the future champions of mountain running.

It isn't easy to every year reopen wounds that have marked the lives of our society, of our friends' group, of our family. But is a deep and intimate satisfaction to see that thanks to this Memorial Marco's blond curls keep on running, listening to music, making new friends. And his smile keeps on living among us.

To each of you, and to you all who every year make this miracle possible, goes our deepest gratitude.
